What is LobbyGuard?

LobbyGuard Visitor Management is a SOLUTION to the following problems being faced by school front office staff today:

- **Track visitors coming and going**
- **Keep out the bad guys**
- **Issue credentials for visitors**
- **Automate the front desk operations**
- **Student late arrival / early dismissal**
- **Custody management**
- **Volunteer tracking**

LobbyGuard Hardware

LobbyGuard Camera

The LobbyGuard camera takes the visitor photo during the sign-in process.

LobbyGuard Bardcode/DL Scanner

The LobbyGuard Bar Code Scanner reads the back of the driver license with 100% accuracy and can scan the visitor out of the building by scanning the bar code printed on the visitor badge.

LobbyGuard Hardware

LobbyGuard Printer

The LobbyGuard printer prints customized visitor badges that include visitor name, photo, reason for visit, person being visited, date and time and other important information. Badges contain a bar code that can be scanned at the kiosk for instant sign-out.

LobbyGuard Dual Spool Printer

Add an extra level of security by printing a different color badge for each visitor type. The LobbyGuard Dual Printer can dispense two separate color badges and allows your staff to quickly distinguish different types of visitors on your premises.

LobbyGuard SL

The LobbyGuard SL Visitor Management Solution contains everything you need to track visitors entering and leaving your building in an affordable package that is installed on your existing PC hardware. The SL is compatible with Windows 7, 8, or 10 PC, laptop or tablet computer.

Sign In. Sign Out. Secure.

LobbyGuard SL Badge Printer

The LobbyGuard SL includes the visitor badge printer to print photo identification and easily identify visitors. The badge printer can be attached directly to the LobbyGuard SL for self-service convenience, or attach it to a front desk PC for security review.

LobbyGuard SL HD Camera

The included 8 megapixel high-resolution camera snaps visitor photo for added security. The photo is stored as part of the visitor record and is printed on the visitor badge. The camera mounts to the top of PC monitor. PCs/laptops/tablets with built-in camera can use the built-in camera in place of the LobbyGuard camera.
